

§ 3050.2

the acceptance of a particular economic, mathematical, or statistical theory, precept, or assumption. A change in quantification technique should not change the output of the analysis in which it is employed.

(g) *Section 3652 report* refers to the annual compliance report provided by the Postal Service to the Commission pursuant to 39 U.S.C. 3652, but does not include the reports required by 39 U.S.C. 2803 and 2804.

§ 3050.2 Documentation of periodic reports.

(a) At the time that it submits any periodic report to the Commission, the Postal Service shall identify any input data that have changed, list any quantification techniques that it has changed, and list any corrections that it has made since that report was last submitted to and accepted by the Commission. It shall provide a brief narrative explanation of each listed change.

(b) If workpapers are required to support a periodic report, they shall:

(1) Show all calculations employed in producing each estimate;

(2) Be sufficiently detailed to allow all numbers used in such calculations to be traced back to public documents or to primary data sources; and

(3) Be submitted in a form, and be accompanied by sufficient explanation and documentation, to allow them to be replicated using a publicly available PC application.

(c) Spreadsheets used in preparing periodic reports shall be submitted in electronic form. They shall display the formulas used, their links to related spreadsheets, and shall not be password protected.

(d) Filing of portions of the documentation required by paragraphs (b) and (c) of this section that are not time critical may be delayed up to 2 weeks if the Postal Service obtains permission from the Commission to defer filing of such portions at least 30 days prior to the date on which the periodic report is due.

39 CFR Ch. III (7–1–10 Edition)

§ 3050.3 Access to information supporting Commission reports or evaluations.

(a) The Commission shall have access to material if, in its judgment, the information supports any report, assessment, or evaluation required by title 39 of the United States Code, including:

(1) The working papers and supporting matter of the Postal Service or the Postal Service Inspector General in connection with any information submitted under 39 U.S.C. 3652; and

(2) Information that supports the Commission's annual assessment under 39 U.S.C. 3651.

(b) [Reserved]

§ 3050.10 Analytical principles to be applied in the Postal Service's annual periodic reports to the Commission.

In its annual periodic reports to the Commission, the Postal Service shall use only accepted analytical principles. With respect to its submissions under § 3050.26, however, the Postal Service may elect to use an analytical principle prior to its acceptance by the Commission.

§ 3050.11 Proposals to change an accepted analytical principle applied in the Postal Service's annual periodic reports to the Commission.

(a) To improve the quality, accuracy, or completeness of the data or analysis of data contained in the Postal Service's annual periodic reports to the Commission, the Commission, acting on its own behalf, may issue a notice of proceeding to change an accepted analytical principle. In addition, any interested person, including the Postal Service or a public representative, may submit a petition to the Commission to initiate such a proceeding.

(b) *Form and content of notice or petition.* The notice of proceeding or petition shall identify the accepted analytical principle proposed for review, explain its perceived deficiencies, and suggest how those deficiencies should be remedied.

(1) If the notice of proceeding or petition proposes that a specific alternative analytical principle be followed, it should include the data, analysis,

Postal Regulatory Commission

§ 3050.20

and documentation on which the proposal is based, and, where feasible, include an estimate of the impact of the proposed change on the relevant characteristics of affected postal products, including their attributable cost, avoided cost, average revenue, or service attainment.

(2) If the petitioner requests access to data from the Postal Service to support the assertions or conclusions in its petition, and such data are not otherwise available, it shall accompany the petition with a request to gain access to such data. The petitioner's request should identify the data sought, and include the reasons for believing that the data will support its petition. To expedite its evaluation of the data request, the Commission may, after reasonable public notice, order that answers or objections be presented orally or in writing.

(c) *Procedures for processing a notice or petition.* To better evaluate a notice or petition to change an accepted analytical principle, the Commission may order that it be made the subject of discovery. By request of any interested person, or on its own behalf, the Commission may order that the petitioner and/or the Postal Service provide experts on the subject matter of the proposal to participate in technical conferences, prepare statements clarifying or supplementing their views, or answer questions posed by the Commission or its representatives.

(d) *Action on the notice or petition.* (1) After the conclusion of discovery procedures, if any, the Commission shall determine whether to issue a notice of proposed rulemaking based on the petition and the supporting material received. Such notice shall be evaluated by procedures that are consistent with 5 U.S.C. 553. Interested parties will be afforded an opportunity to present written comments and reply comments, and, if the Commission so orders, to present oral comments as well.

(2) If accepted by the Commission, the change proposed in the notice of proposed rulemaking shall be published in a final rule in the FEDERAL REGISTER and on the Commission's Web site.

§ 3050.12 Obsolescence of special studies relied on to produce the Postal Service's annual periodic reports to the Commission.

The Postal Service shall provide a list of special studies whose results are used to produce the estimates in its annual periodic reports to the Commission. It shall indicate the date the study was completed and whether the study reflects current operating conditions and procedures. The Postal Service shall update the list annually.

§ 3050.13 Additional documentation required in the Postal Service's section 3652 report.

At the time the Postal Service files its section 3652 report, it shall include a brief narrative explanation of any changes to accepted analytical principles that have been made since the most recent Annual Compliance Determination was issued and the reasons that those changes were accepted.

§ 3050.14 Format of the Postal Service's section 3652 report.

The Postal Service's Cost and Revenue Analysis (CRA) report shall be presented in a format reflecting the classification structure in the Mail Classification Schedule. It shall also be presented in an alternative, more disaggregated format capable of reflecting the classification structure in effect prior to the adoption of the Postal Accountability and Enhancement Act.

§ 3050.20 Compliance and other analyses in the Postal Service's section 3652 report.

(a) The Postal Service's section 3652 report shall include an analysis of the information that it contains in sufficient detail to demonstrate the degree to which, in the fiscal year covered by its report, each of its products (market dominant and competitive) comply with all of the applicable provisions of title 39 of the United States Code and the regulations promulgated thereunder, and promote the public policy objectives set out in title 39 of the United States Code.

(b) Its analysis shall be applied to products individually, and, where appropriate, to products collectively.
